Please respond with any relief from the unprofessional Conduct and "reprisal misconducts" that Corrections Officer Timothy Poole continues to perform in his campaign of harassment toward myself and others.

4:18CV01090 PLC

There is no logical or Penological interest in Mr. Pool's conduct and his lack of professional conduct is becoming a security risk to himself and other staff...he makes threatening comments and tries to target personal-bias-searchers in order to retaliate against offenders.

(June 30, 2018) C.O.I. Poole, Timothy, Took my medication (Tylenol) and threw it in the Trash during a reprisal cell search and my Name and Doc Number is clearly printed on the label sticker from: Pharma Corr (OKC) 6705 Camille Ave, Oklahoma City, Ok. 73149.

C.O.I. Pool, Timothy, refuses to allow me or my cell mate to go to the recreation cage (on Monday(s), Wednesday(s) & Friday(s)) and I am "standing at the door" when (C.O.I) Pool, Timothy, comes by each morning to ask other offenders if they want recreation and he intentionally ignores my presence at the door and walks by without placing my cell (No. #4) on his list for recreation...he also urinates in the empty shower stalls prior to me taking a shower when he is on duty, at 12:00 am.

Respectfully yours, Jay K. (#1273614)
